- 6) ☐ Other:

1. Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1-11,13,30-45, drawn to a shadow mask with the first slot group having wider interval between the bridges than the second slot group, classified in class 313, subclass 407;
- II. Claim 12, drawn to a shadow mask wherein a portion where the bridges are formed and a portion where the bridges are not formed are alternately disposed in a horizontal direction, classified in class 313, subclass 402;
- III. Claims 14-29, drawn to a method of assembling a shadow mask classified in class 445, subclass 30.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I-III are distinct. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation, different effects and different functions.

3. Because these inventions are distinct for the reasons given above and the *search required for one Group is not required for another Group*, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Mr. Robert E. Brushnell on February 10, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship
